◇ sharmilajagan2003@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Portfolio](#)

OBJECTIVE

Seeking an opportunity to contribute to innovative web development projects and grow within a dynamic, collaborative team environment. Committed to continuous learning and leveraging strong problem-solving abilities to deliver high-quality web solutions.

EDUCATION

B.TECH in Information Technology , Kingston Engineering College - (2025)	8.27 cgpa
HSC , Government Girls Higher Secondary School - (2021)	89.16
SSLC , Sri Venkateswara Matriculation High School - (2019)	86

SKILLS

Programming & Web technologies	HTML , CSS , Javascript , Java
Tools	Git , GitHub , VS code

PROJECTS

Bus Reservation System — *Python, Django, SQL*

- Developed a web-based bus reservation system using Python and Django, enabling users to register, log in, and manage their bookings..
- Built an admin panel to manage bus routes, schedules, and user data efficiently.Handled database operations for storing and retrieving application data.

Earthquake Prediction Model — *Python, Data preprocessing, EDA ,Data Visualization*

- Built a model using Python to analyze earthquake data and predict possible seismic activity.Cleaned and prepared the dataset for better analysis.
- Trained the model and checked its performance using different techniques.Presented results to understand patterns in earthquake data.

EXPERIENCE

Data Science [July 2024 - Sep 2024]

- Assisted in data cleaning, preprocessing, and basic analysis using Python and Excel.
- Created simple visualizations and dashboards to support data reporting and insights.
